

International Mounted Games Association Compliance Sub-Committee

Work Order Document

Requested:	10/12/2014
Deadline:	Various deadlines depending on competition dates
Reference:	COM-201415-002
Name:	Pre-Competition Inspections

Requirements:

IMGA is committed to carrying out pre-competition inspections for each of the IMGA sanctioned competitions in each season.

More details relating to how and when these inspections are to be carried out can be found in the "Organisation of an IMGA sanctioned competition" document which can be found here:

<http://www.mounted-games.org/imga/games/competition/index.html>

Is it the responsibility of the Compliance sub-committee to organise these pre-competition inspections by identifying suitable individuals to carry out the inspections and liaising with the relevant hosts to fix dates to carry them out.

IMGA will reimburse inspectors for their travel expenses to carry out these inspections but given limited available finances the Compliance sub-committee should, wherever possible, attempt to appoint inspectors who are geographically close to the venue to be inspected whilst at the same time being impartial and unconnected to the organisers themselves.
